CALIFORNIA LEGISLATURE—2005–06 REGULAR SESSION

ASSEMBLY BILL

No. 748

Introduced by Assembly Member Wolk

February 17, 2005

~~An act to amend Section 14666.8 of the Government Code, relating to state property.~~ *An act to add Sections 27566, 30114, and 30814 to the Streets and Highways Code, relating to transportation, and declaring the urgency thereof, to take effect immediately.*

LEGISLATIVE COUNSEL'S DIGEST

AB 748, as amended, Wolk. ~~Wireless communications~~ *Toll bridges and toll roads: pedestrians and bicycles.*

Existing law provides for construction and operation of various toll bridges and toll roads by the Department of Transportation, the Golden Gate Bridge, Highway and Transportation District, and by private entities that have entered into a franchise agreement with the department.

This bill would prohibit a toll from being imposed on the passage of a pedestrian or bicycle over these toll facilities.

This bill would declare that it is to take effect immediately as an urgency statute.

~~(1) Existing law authorizes the Director of General Services, on behalf of the state, to negotiate and enter into an agreement to lease Department of General Services-managed and state-owned real property to any provider of wireless telecommunications services for location of its facilities, subject to specified criteria.~~

~~This bill would provide that, with respect to real property that is part of the State Water Resources Development System, the director may only negotiate and enter into an agreement under these provisions with~~

~~the written approval of the Department of Water Resources, and with respect to real property that is part of the Sacramento River or San Joaquin River flood control system, with the written approval of the Reclamation Board. It would require the director to charge an application fee sufficient to reimburse the Department of Water Resources or the Reclamation Board for its respective costs in this regard.~~

~~(2) Existing law requires any revenue collected from a lease entered into under these provisions to use property that was acquired with money from a fund other than the General Fund to be deposited into the fund from which the money was obtained, to be available upon appropriation by the Legislature, notwithstanding any other provision of law.~~

~~Existing law requires all revenues derived from the sale, delivery, or use of water or power, and all other income or revenue derived by the state from the State Water Resources Development System to be deposited in a special account or accounts in the California Water Resources Development Bond Fund according to specified criteria.~~

~~This bill would provide that if a wireless telecommunications facility is sited on real property acquired with funds from the State Water Resources Development System, all revenue generated from the lease or related transaction, shall be deposited into the appropriate account in the California Water Resources Development Bond Fund.~~
